Mecanizados Lodoso has a long history in the bar turning and machining sector. Present in the market since 1965, it is from its constitution as a Limited Company in the year 2000 and the transfer of its facilities to its current location, when it starts a process of modernisation and introduction of new technology that places it in an outstanding position within the bar turning and machining sector.

The company's management is totally convinced of the usefulness and importance of Quality Management, in a frame of reference of continuous improvement and satisfaction of the customer and all the relevant interested parties.

For this reason it is prepared to implement and maintain a Quality Management System based on the UNE EN-ISO 9001, and on the following VALUES:

- Understanding what adds value for our customers and focusing on their satisfaction.
- Continuous improvement towards excellence as a way of working.
- To serve our customers by continually challenging ourselves to achieve the highest levels of quality in our products.
- Promote continuous improvement and innovation to achieve the highest quality, always seeking to maximise the profitability of our customers.
- Encourage the participation of all to achieve a common goal, sharing information and knowledge.
- Personal relationships based on trust and mutual respect.
- Commitment to strong work ethics, integrity and honesty, as well as compliance with applicable laws.
- Commitment to environmentally sustainable business practices.

In l'Ametlla del Vallès, 2nd May 2022

Enrique Lodoso

Director
